

2019 Hearing Care Anywhere Forum

Requested Course Hours/CEUs:

9 Hour | 0.9 CEUs

Active Course Dates:

01/04/2019 – 12/31/2019

Course Description

This course covered a variety of topics related to overall health and hearing. Among topics discussed were: integrated sensors/artificial intelligence, inertial sensors, real-time feedback, fitting software/product development, and mobile app features. Attendees were able to list benefits of asynchronous remote programming, as well as identify solutions for improved patient hearing.

Course Learning Outcomes

Day 1 Learning Outcomes

Upon completion, participants will be able to:

1. Describe how integrated sensors and artificial intelligence provide new solutions for patients with hearing loss
2. List how inertial sensors provide real-time feedback about overall body fitness and mental fitness
3. Identify updates to the fitting software to enable new products and accessories
4. List the steps for initiating a remote programming session
5. Identify troubleshooting screens in the fitting software that assist in resolving patient reports
6. Identify features within the mobile app that allows for remote programming

Day 2 Learning Outcomes

Upon completion, participants will be able to:

1. Define how custom hearing solutions offer improved patient outcomes
2. List at least two benefits of asynchronous remote programming
3. Identify three requirements in developing today's hearing technology

Course Dates and Location

Various dates and locations.

Starkey Hearing Technologies Policies

Transparency in Course Planning, Delivery and Marketing

Starkey Hearing Technologies discloses that there will be limited to no information provided about similar products or services during the course listed in this document. Speaker biographies and disclosures are included in this document.

Intellectual and Legal Property Rights

Starkey Hearing Technologies respects intellectual and legal property rights of staff members and guest speakers. Resources and materials used in the preparation and presentation of learning content are referenced appropriately.

Privacy Policy

Starkey Hearing Technologies respects individual participant's privacy. Contact and license information is stored on a secure server maintained by Starkey Hearing Technologies. The information is used only to mail the letter of attendance and to report attendance to requested national and state boards. Letters of attendance are provided only to the participant and are not distributed at the request of the office.

Equal Employment Opportunity Policy

Starkey Hearing Technologies is an equal opportunity employer/minority/Female/Vet/ Disabled. We encourage diversity in the workplace. In fact, we believe the diverse individuality of our employees is truly what makes us great. We value each team member as a key part of our continuing commitment to excellence.

How to Submit for Credit

To receive credit and earn CEUs or professional development hours, you must turn in the attendance documentation prior to leaving the course. This is also the only way to obtain a Letter of Attendance. Documentation is not accepted retroactively via scan, fax, email or US mail. Starkey Hearing Technologies' attendance policy requires attendance of the entire event; partial credit is not available.

Attendance is reported to required boards only if requested by the attendee on the attendance form. Reporting to required boards will be completed retroactively only in the event of clerical error by Starkey Hearing Technologies and not due to failure of the participant to accurately complete all attendance documentation requirements.

All participants should follow this process—including owners, fitters, students, managers and administrators to officially document your attendance and participation at this event.

Appeals Process

An appeal is required if you do not report attendance via the *How to Submit for Credit* policy above. Appeals are adjudicated individually by the Starkey Hearing Technologies Continuing Education Board and may not be granted. Appeals will be accepted up to 3 months from the published course end date for the program.

Course Evaluation Policy

Starkey Hearing Technologies collects evaluations for each course offered. It consists of a 1-5 rating scale to evaluate performance of the presenter and relevance of the content and open-ended questions to determine room for improvement and future topics.

Promotional Materials: National Boards

Starkey Hearing Technologies has pre-registered this course with:

IACET

Starkey Hearing Technologies is accredited by the International Association for Continuing Education and Training (IACET). Starkey Hearing Technologies complies with the ANSI/IACET Standard, which is recognized internationally as a standard of excellence in instructional practices. As a result of this accreditation, Starkey Hearing Technologies is accredited to issue the IACET CEU.

Starkey Hearing Technologies is authorized by IACET to offer 0.9 CEUs for this program.

ASHA

Starkey Hearing Technologies is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. **See course information for number of ASHA CEUs, instructional level and content area.** ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

This course is offered for 0.9 ASHA CEUs (Intermediate Level, Professional Area)

AAA

Starkey Hearing Technologies is approved by the American Academy of Audiology to offer Academy CEUs for this activity. The program is worth a maximum of 0.9 CEUs. Academy approval of this continuing education activity is based on course content only and does not imply endorsement of course content, specific products, or clinical procedure, or adherence of the event to the Academy's Code of Ethics. Any views that are presented are those of the presenter/CE Provider and not necessarily of the American Academy of Audiology.

This course is offered for 0.9 AAA CEUs

IHS

This program is approved by the International Hearing Society and its educational committee, the International Institute for Hearing Instruments Studies.

This course is offered for 9 IHS CEUs
