Wireless Accessories

Innovative solutions for
2.4 GHz wireless products

Enjoy universal connectivity with wireless accessories

Use our line of wireless accessories with Livio Edge AI hearing aids to connect simply and easily to most smartphones, TVs and media devices to help you stream phone calls, music, voice assistants and more.*

These wireless accessories, enabled with Bluetooth® technology, are easy to pair and use, and they provide supreme sound quality. Throughout every step of the product design process, improving your overall listening experience is our top priority.

Table Microphone

*Also compatible with Livio products.

Table Microphone **NEW**

Eight built-in microphones detect the primary speaker's voice and stream it to your hearing aids, allowing you to easily enjoy group settings like family gatherings or noisy restaurants.

Remote Control

Our remote control allows you to control memory and volume, mute your hearing aids and turn other special features on and off.

TV Streamer

Stream audio from your TV or other electronic audio source directly to your Livio Edge AI hearing aids. It offers excellent sound quality, is easy to use and supports both analog and digital input sources.

Mini Remote Mic

Enjoy one-on-one conversations in noisy environments with our small, easy-to-use Mini Remote Mic. Clip it onto the clothing of the person you're talking to, or use it as a TV streamer by placing it near the sound source.

Remote Mic Plus

Enjoy one-on-one conversations in noisy environments and easily stream to both ears from four different audio sources: Bluetooth, Telecoil, FM or Line-In.
