livio
Superior sound quality and connectivity
Starkey is a world leader in the development of innovative hearing aid technology.

Over the past decade, hearing aids have transitioned from single-purpose devices designed to improve audibility for people with hearing loss to “connected” devices that let users stream phone calls, television, music and other audio signals directly from their smartphones to their hearing aids.

With Livio hearing aids you get the industry's smartest rechargeable, a solution for single-sided hearing loss and our best sounding and best performing device ever.

At Starkey, we’re continuously innovating
Hearing Reality is a new standard in clarity and comfort

With Livio, you’ll enjoy supreme sound clarity, comfort and universal connectivity. Thanks to innovative technology we call Hearing Reality, Livio is designed to be effective in the noisiest environments.

In fact, a recent independent study gave Livio hearing aids the top rating compared to other manufacturers’ premium devices for reducing background noise in noisy listening environments.¹

You’ll be able to hear speech more comfortably, even in a busy restaurant or coffee shop, while unwanted noises will be suppressed.

Livio hearing aids work seamlessly with accessories and your favorite digital devices to help you connect to your world, and to:

• Deliver superior sound quality, listening clarity, more natural hearing and effortless transitions

• Preserve peace and quiet while amplifying important sounds so you can better understand conversations

• Stream phone calls, music and messages directly from your smartphone to your hearing aids

• Offer remote programming so your hearing professional can make minor adjustments without an office visit
The connection between health and hearing

Hearing health is directly connected to overall health and well-being. That’s been proven, and it means people who are able to hear can engage with the world around them and live better, healthier lives.

Ever-increasing evidence also shows treatment of hearing loss with hearing aids can improve or limit some serious health issues, such as cognitive decline and dementia. In fact, a 2017 study revealed that treating hearing loss is the single greatest change a person can make to lower their risk for dementia.

Other research supports that it’s a change worth making. Adults with moderate to severe hearing loss are three to five times more likely to develop dementia. And adults with hearing loss can experience a 30 to 40 percent faster rate of cognitive decline than those with normal hearing.
What making better connections sounds like

Livio connects easily to smart devices via Bluetooth® technology so you can use the Thrive Hearing Control app to easily manage your hearing aid settings and access an array of revolutionary features.

Hearing Performance
Our latest technology provides superior sound quality plus advanced features and capabilities to enhance your listening experience.

Superior Sound Quality
Advanced technologies work together to provide exceptional sound quality in any environment.

Rechargeable
The industry’s smartest rechargeable hearing aids available providing up to 24-hour, round-the-clock wear.

Streaming
Enhanced streaming performance lets you enjoy music or favorite TV shows like never before.

Phone Calls
Answer your calls with a touch of a button and hear an entire conversation streaming directly to your Livio hearing aids via Bluetooth technology.*

*Remote Microphone + is required for certain Android™ devices.
Hearing Performance
CONTINUED

**Personalized Memories**
Create multiple custom memories including geotagged memories like, “coffee shop.”

**Remote Control**
Change volume and switch memories easily using a tool in the Thrive app.

**Adaptive Car Mode**
Hearing aids automatically change to a setting designed to reduce the annoying sounds of driving.

**Auto Experience Manager**
Automatically adjusts hearing aid loudness over time to help you transition to new hearing aids more comfortably.

**Personalized Control**
Make personalized real-time adjustments to suit your preferences in different listening situations.
Intelligent Assistant
Simplify your life with the convenience of Intelligent Assistant features.

Thrive Assistant
Provides quick answers to questions like, "how do I adjust volume?" or "what's the weather?"

Self Check
Provides a quick, convenient way for you to analyze your hearing aid system’s performance.

Siri Integration
You can have Siri® read texts and emails directly to your Livio hearing aids.*

Reminders
Easily set up reminders for appointments, taking medications, prescription refills or other personal tasks.

Find My Hearing Aids
Helps you easily locate misplaced hearing aids by providing a location and a timestamp.

Hearing Care Anywhere
Request hearing aid adjustments from your hearing professional using the Thrive app so you don’t need to stop in for an office visit.

*Only available with Apple® devices.

Meet the world’s first custom rechargeable hearing aids. Custom means the hearing aid is custom molded to fit your unique ear canal comfortably and securely. Multiple color options allow you to be discreet or show off your new in-ear device.

Our charger fits both custom and RIC R hearing aids, providing up to 24* hours of power on a single charge.

*Results will vary based on wireless and feature usage.
Reconnect with what matters most

Sleek, wireless accessories stream the sounds you love directly to your Livio hearing aids. Enjoy your favorite music, TV shows and phone calls with excellent sound quality.

1. **Mini Remote Microphone**

   Enjoy one-on-one conversations in noisy environments by clipping it to your conversation partner’s clothing.

2. **TV Streamer**

   Easily stream audio from your TV or other electronic audio source directly to your hearing aids.

3. **Remote Microphone +**

   Enables easy audio streaming and one-on-one conversations in noisy environments.

4. **Table Microphone**

   Make group settings easy with eight built-in microphones that stream the primary speaker’s voice to your hearing aids.

5. **Remote**

   Easily control memory and volume, mute your hearing aids and turn other special features on and off.
Most health tracking devices use the wrist, but the ear provides far more accurate data — in fact, it’s the ideal spot for reliable tracking, and Livio AI is the first-ever device to take advantage of that.

Now people of all ages can take a proactive approach to their overall health and wellness.

Livio AI also features easy tap control, transcribes conversations and is compatible with both Android and Apple smartphones.

Another member of the Livio product family, Livio AI is the world’s first hearing aid with sensors and artificial intelligence that lets users monitor brain and body health. When a hearing aid does all this, it’s more than just a hearing aid, it’s a multi-purpose device that redefines what a hearing aid can do.
Livio hearing aids enable you to hear better in all environments—even the most challenging ones.
