For most makes and models.

Worry-free Warranty protection plans

Hearing instrument coverage for most makes and models

Worry-free deluxe loss, damage and repair protection

This warranty provides coverage for most makes and models. This coverage includes repair due to internal component failure, external repairable damage and a one-time replacement due to loss, theft or total destruction. Instruments must not be in need of service or replacement at time of purchase.

NOTE: *Worry-free Warranty is not available for accessories and ZPower® devices.*

Starkey reserves the right to provide a comparable device that may not have ear-to-ear compatibility with the remaining device. A processing fee will apply to Loss & Damage claims.

Worry-Free Warranty

Coverage for most makes and models

Don't take chances

Your hearing instruments will become a natural part of your life, so the need to protect your investment is especially important. To suddenly be without them can be very upsetting, not just for you, but for family and friends as well.

Yet, even with every precaution, the unthinkable can occur. Hearing instruments can malfunction or get lost — usually at the worst possible time.

Protection that fits your needs

We're pleased to offer Worry-free Warranty coverage for most hearing instrument brands. Available anytime, as long as your instruments are in proper operating condition, our plans provide protection against failure, damage and even loss.

How Worry-free Warranties work

If you experience problems with your instrument(s) during the warranty period, simply bring them to your provider. In many instances, we can diagnose the problem and make immediate corrections.

For more complex problems, your instruments may be sent to the repair lab. In some cases, loaner instruments are available while yours are serviced.

We accept all repairs.

Enjoy true worry-free hearing

For most people, hearing instruments become such a vital and normal part of life that they forget they're wearing them. Let us help protect and enhance that peace of mind with Worry-free Warranty coverage.

Hearing aids are sophisticated miniature devices that can provide years of benefit when cared for properly. The following are a few simple reminders about the care of your hearing instruments:

- Never attempt to repair your hearing instruments. Do-it-yourself repairs usually cause more damage than good. Any problems should be reported immediately.
- Never wear your hearing instruments in the shower or while swimming.
- If your hearing instruments do get wet, never try any "quick drying" methods such as microwaves, hair dryers or ovens. Consult with your provider if your instruments are inoperable due to moisture.
- Always place your hearing instruments in a safe place out of reach of pets or small children.
- If your hearing instruments sound distorted or unclear, they may be in need of repair and you should consult with your provider immediately.
- Visit your provider at least twice a year for follow-up care and routine service. Hearing loss is dynamic, and we recommend that you have your hearing tested at least once a year to ensure you are receiving maximum benefit from your hearing instruments.
